Soft4Boost DVD Cloner For Windows 10 Crack is a reliable tool that can come in handy every time you wish to create a DVD clone. The application can not only copy the DVD contents onto your computer, but it can also help you create DVDs for home players. The program is intuitive simple to use and can perform the copy in a short time. Reliable disc cloner Soft4Boost DVD Cloner allows you to customize the process of copying media files from the discs and save it onto your hard disk. Alternatively, you can instantly burn the copied content onto a blank DVD. The program can automatically detect if a supported disc is inserted into the drive and allows you to select the

desired source. The input can be the DVD drive or a local folder, meaning you can select local media files to burn onto the disc. The program supports working with CD-R/RW, DVD+/-R, DVD+/-RW, DVD-RAM or Double/Dual Layer DVDs. Customize the DVD copying process Soft4Boost DVD Cloner allows you to extract all the contents from a DVD, including menus and extras, but you may also select other copying methods. For instance, you may select all, except for the extras, copy only the movie or extract only the selected chapters. You may easily preview the contents of the disk as a list, as well as view the videos, with the help of the integrated player. The program can optimize the files to be copied, but you cannot customize other

settings. Select output and copy the DVD contents Soft4Boost DVD Cloner allows you to copy disc contents onto your computer or burn local files onto a blank disc. The output location depends on the type of procedure you select. If you extract the videos from the DVD, then you can either select a local folder or a disc drive as the destination.

Moreover, it allows you to compress the video if its size is too large. ... This software is very easy to use and easy to install. It is a great tool for creating backups of your files that are located on the DVD. The user interface is very intuitive. There is no need for further training to use this application, as it is very user friendly. The backup takes place on the DVD by burning all the files that are located on the DVD to the

backup disc. This software is compatible with any kind of DVD burner. It is also possible to configure the application in such a way that it only burns selected files or folders of the DVD. The software can
